

"These barracks keep me contained from the rest of the world, is that a good or bad thing?"

Dream of escape

The desire to find joy of creativity
The transformation from
mind into representation.

So hard and time
consuming maybe

I should keep it to myself
and not communicate these
strange dreams. Falling from the
comfort of your bed into a

Riddle of a whiplash seeking you
into a land where your mind runs
free and life materializes before your own
imagination.

From one prison to
another maybe leaving
for another way so often
can save you from these
unfavourable feelings of
sadness and lack of motivation to
accomplish what you
want.
